(1) staff must be positioned in the indoor and outdoor environment to maximize their ability to hear or see the children at all times and render assistance;

(2) staff must interact with the children while moving about the indoor or outdoor area;

(3) staff must know where each child is located and be aware of the children's activities at all times;

(4) staff must provide supervision appropriate to the individual age, needs, and capabilities of each child; and

(5) staff must be able to see and hear children aged birth to five years old while the children are eating.

All of the conditions in this Paragraph shall apply except when emergencies necessitate that adequate supervision is impossible. Documentation of emergencies shall be maintained and available for review by Division representatives upon request.

(b) For groups of children aged two years or older, the staff/child ratio during nap time shall comply with the requirements of this Chapter if at least one person remains in the room, all children are visible to that person, and the total number of required staff are on the premises and within calling distance of the rooms occupied by children.
10A NCAC 09 .1802   STAFF/CHILD INTERACTIONS
Staff shall interact with children in positive ways by helping them feel welcome and comfortable, treating them with respect, listening to what they say, responding to them with acceptance and appreciation, and participating in activities with the children. For example, staff shall:

(1) make eye contact when speaking to a child;
(2) engage children in conversation to share experiences, ideas, and opinions;
(3) help children develop problem-solving skills; and
(4) facilitate learning by providing positive reinforcement, encouraging efforts, and recognizing accomplishments.

The following shall apply at all child care centers:

(2) no child shall be placed in a locked room, closet, or box or be left alone in a room separated from staff;
(3) no discipline shall be delegated to another child;
(4) no food shall be withheld as punishment or given as a means of reward;
(5) no child shall be disciplined for toileting accidents;
(6) no child shall be disciplined for not sleeping during rest period;
(7) no child shall be disciplined by assigning chores that require contact with or use of hazardous materials, such as cleaning bathrooms, floors, or emptying diaper pails;
(8) physical activity, such as running laps and doing push-ups, shall not be withheld as punishment or required as punishment;
(9) no child shall be yelled at, shamed, humiliated, frightened, threatened, or bullied; and
(10) no child shall be restrained as a form of discipline unless the child's safety or the safety of others is at risk. For purposes of this Rule, “restraining” shall mean that a caregiver physically holds a child in a manner that restricts the child’s movement, for a minimum amount of time necessary to ensure a safe environment. Notwithstanding any other provision of this Rule, no child shall be restrained through the use of heavy objects, including a caregiver’s body, or any device such as straps, blankets, car seats, or cribs.

(b) Discipline practices shall be age and developmentally appropriate.

If a center changes its discipline policy at any time, it must give written notice of such a change to the child's parent, guardian, or full-time custodian 14 days prior to the implementation of the new policy. The center shall obtain the parent’s signature on a statement that attests that a copy of the new policy was given to and discussed with him or her.
