February is National Children’s Dental Health Month

Every child deserves to have a big, beautiful smile. Good oral health care is the key — and good habits develop with the care given from early infancy throughout childhood. Remember looking for that first tooth to come in and the first wiggly one to be lost? The following web sites have good information and resources to help our children keep their teeth healthy and strong. Please share these links with folks who care for children...and SMILE!

American Dental Association - fun activity sheets for kids and quick links to dental care information and resources

American Academy of Pediatric Dentistry - pediatric oral health information for parents

keepkidshealthy.com - this Dental Health Guide offers recommended practices, answers common questions, and links to professional resources
