Sudden Infant Death Syndrome (SIDS) is the unexpected death of a seemingly healthy baby for whom no cause of death can be determined based on an autopsy, an investigation of the place where the baby died and a review of the baby's clinical history.

Child care providers can maintain safer sleep environments for babies that help lower the chances of SIDS. N.C. law requires that child care providers caring for children 12 months of age or younger, implement a safe sleep policy, share this information with parents and participate in training.

In the belief that proactive steps can be taken to lower the risks of SIDS in child care and that parents and child care providers can work together to keep babies safer while they sleep, this facility will practice the following safe sleep policy:

**Safe Sleep Practices**

1. All child care staff working in this room, or child care staff who may potentially work in this room, will receive training on our infant Safe Sleep Policy.
2. Infants will always be placed on their backs to sleep, unless there is a signed sleep position medical waiver on file. In that case, a waiver notice will be posted at the infant's crib and the waiver filed in the infant's file.
3. The American Academy of Pediatrics recommends that babies are placed on their back to sleep, but when babies can easily turn over from the back to the stomach, they can be allowed to adopt whatever position they prefer for sleep.
4. We will follow this recommendation by the American Academy of Pediatrics. However, child care staff can further discuss with parents how to address circumstances when the baby turns onto their stomach or side.
5. **Visually checking sleeping infants.** Sleeping infants will be checked daily, every 15-20 minutes, by assigned staff. The sleep information will be recorded on a Sleep Chart. The Sleep Chart will be kept on file for one month after the reporting month. We will be especially alert to monitoring a sleeping infant during the first weeks the infant is in child care.

   **We will check to see if the infant’s skin color is normal, watch the rise and fall of the chest to observe breathing and look to see if the infant is sleeping soundly. We will check the infant for signs of overheating including flushed skin color, body temperature by touch and restlessness.**

6. Steps will be taken to keep babies from getting too warm or overheating by regulating the room temperature, avoiding excess bedding and not over-dressing or over-wrapping the baby.

I, the undersigned parent or guardian of ____________________________ (child's full name), do hereby state that I have read and received a copy of the facility's Infant/Toddler Safe Sleep Policy and that the facility’s director/ owner/operator (or other designated staff member) has discussed the facility's Infant/Toddler Safe Sleep Policy with me.

**Date of Child’s Enrollment: ____________________________**

Signature of Parent or Guardian: ____________________________________________ Date: ____________

Signature of Child Care Provider: ____________________________________________ Date: ____________

**Distribution:** one signed copy to parent(s)/guardian(s); signed copy in child's facility record.

**Effective date:** 5/1/04

**Review:** #1 12/15/05

**Revisions:** #1 1/1/06 COM
